Career Objective

BIT student seeking an Information Technology internship to apply academic knowledge in software development, data analytics, web technologies, and system security, while gaining practical experience and contributing to real-world projects in a collaborative and growth-oriented environment.

Education

Bachelor in Information Technology (BIT)

Patan Multiple Campus, Tribhuvan University — Expected Graduation: August 2026

Completed coursework in Programming, Database Systems, Networking, Web Development, and Cybersecurity Fundamentals.

Experience

Intern — Nobel Learning PBC (May 2025 – August 2025)

- Gained hands-on experience in Internet Troubleshooting, Web Design, and Effective Communication.
- Worked on projects involving Pitch & Presentation, Leadership, and basic web design principles.
- Improved teamwork, coordination, and problem-solving through real-world scenarios.

Projects

Campus Hive – Campus Management System | [Link](#)

- Developed a role-based educational platform using Flask and PostgreSQL.
- Implemented authentication, real-time updates, and a mobile-first responsive interface.
- Designed the database schema and handled CRUD operations for study materials, forums, and events.

Python Virtual Assistant | [Link](#)

- Built a desktop assistant for basic automation tasks using Python libraries.
- Enabled functionalities such as opening applications, retrieving information, and simple voice-based operations.

Sumit Shopping Site (Frontend Project) | [Link](#)

- Designed and developed a shopping website frontend using HTML, CSS, and JavaScript.
- Focused on responsive layout, UI design, and interactive product features.

Technical Skills

Programming: Python, JavaScript (Basic)

Web Development: HTML5, CSS3, Flask, Django (Basic)

Database: PostgreSQL, MySQL (Basic)

Tools & Platforms: Git/GitHub, Linux, VS Code

Core Concepts: Data Structures, Network Security, REST APIs, Basic Data Analytics

Relevant Coursework & Training

- Data Structures & Algorithms
- Computer Networks and Security
- Database Management Systems
- Web Technologies (HTML, CSS, JavaScript)
- Object-Oriented Programming with Python

Licenses & Certifications

- School of AI Certified Cloud Practitioner (Foundational) — Udemy, Issued Oct 2025
- AI Assistant (JARVIS) With Python — Udemy, Issued Oct 2024
- Programming in HTML5 with JavaScript and CSS3 — Udemy, Issued Sep 2024
- CyberSecurity Bootcamp: The Ultimate Beginner's Course — Udemy, Issued Oct 2025

Strengths

- Strong problem-solving and analytical thinking
- Quick learner with adaptability to new technologies
- Team collaboration and effective communication

Additional Information

- Available for full-time or part-time internship immediately
- Fluent in English and Nepali
